

CROWN

DATA SYSTEMS

Crown Express

Crown Express is an affordable trucking software technology resulting in increased productivity, reduced costs and improved service to your customers.

- Automated color-coded dispatch makes managing shipments and updating records easy.
- Automatic rating of tariffs and accessorial charges saves time and ensures accuracy in billing, leading to faster invoicing and increased cash flow.
- Shipment statuses are instantly available to your customers as updates occur through on-line web-tracking or via EDI.
- Interfaced with QuickBooks, your customers will get a detailed breakdown of the base rates, service levels, accessorial charges and fuel surcharges.
- No upfront costs - Crown manages the service from a secured data center accessed through a high-speed internet connection, eliminating the need to buy costly servers.
