

Crown Express is an affordable trucking software technology resulting in increased productivity, reduced costs and improved service to your customers.

Easy Organizing

Automated color-coded dispatch makes managing shipments and updating records easy.

Faster Invoicing

Automatic rating of tariffs and accessorial charges saves time and ensures accuracy in billing, leading to faster invoicing and increased cash flow.

Live Updates

Shipment statuses are instantly available to your customers as updates occur through online web-tracking or via EDI.

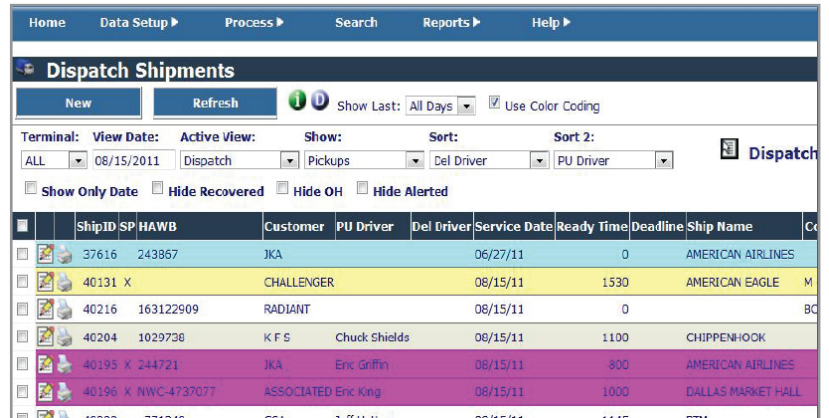

QuickBooks Connected

Interfaced with QuickBooks, your customers will get a detailed breakdown of the base rates, service levels, accessorial charges and fuel surcharges.

No Upfront Costs

Crown manages the service from a secured data center accessed through a high-speed internet connection, eliminating the need to buy costly servers.
