

Quarter 4 2008 Release Version Crown 5.9

Enhancements to the Shipment Information Screen

- ❖ Added new events to the shipment change log on a shipment. Logs have been added for MDU changes from a driver. Also enhanced the shipment change log to record more events. Events such as OH and OFD are not marked in the change log.
- ❖ Paperwork Complete has been implemented for Line haul Only and Misc/Other shipments.

Enhancements to the Dispatch Screen

- ❖ Changes have been made to the bulk selection of marking a PU/DEL driver. When you right click and select a driver. Crown can now automatically mark the shipment OFD or Dispatched. Just answer yes or no to the question.
- ❖ You can now send a shipment to MDU through bulk select and choose one driver instead of sending to call drivers at once.
- ❖ Added the ability to bulk select multiple shipments and mark Transfer/Sweep driver through right click on the dispatch screen.

Enhancements to the Customer File

- ❖ On the Customer Maintenance screen on the other tab. You can now see when the customer was entered in Crown. The last edit information is still on the general tab.
- ❖ You can now record the CDS-Connect usernames and passwords that are assigned to a user. This can be placed in the notes box on the comm/imaging tab. Double click on the communication that you would like to enter the note for.
- ❖ Added 2 additional completion requirements.
 - You can now choose to require a route selection on entry for PU or DEL.
 - You can also choose to require a customer contact be entered on entry for a PU or DEL.

Enhancements to the Review Screen:

- ❖ When releasing shipments to billing you can now select a company/cost center.

Enhancements to the Billing Screen:

- ❖ When you print batch invoices. You can now select a company/cost center on the batch process.
- ❖ When batch printing you can now select a company/cost center.

Report Additions and Enhancements:

- ❖ Added a service date selector to the OSD report in dispatch reports.
- ❖ Added an area at the top of the Driver Stop List report for the driver to record fuel consumption.
- ❖ We have modified the dock check report to show On Hand and On Hold shipments, or you can just show On Hand Shipments.
- ❖ On the Delivery Receipt you have the option to see your company name below the customer's name. This can be implemented by calling us at 716-651-0977.
- ❖ The service date will now appear on the Airport Sweep report.
- ❖ The Dim Weight and Authorizations have been added to the Billing Verification Report

Enhancements to Mobile Data:

- ❖ The status for when a driver POD's or Recovers a shipment has been added to the shipment change log on a shipment.
- ❖ Added ability to POD a transfer to carrier date/time and a signer on the phone. This requires an upgrade to CrownMobile 4 on the driver's phones.
